

COVID-19 Response Protocol – Updated 5/27/2020

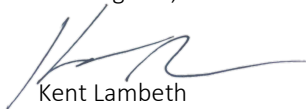

In order to limit exposure of Pneumatech employees to the COVID-19 virus, Pneumatech asks all field personnel to continue to operate utilizing social distancing practices outlined by the CDC.

The following guidelines are to be implemented immediately:

- Social distancing and sanitary precautions are to be adhered to by all personnel.
- Evaluating each activity prior to the start of work to ensure it can be safely completed with available resources
- One worker/1 truck rules should be the preferred norm
- Schedules have been adjusted to minimize contact between crews
- Minimize switching vehicles when possible. However, when necessary, all vehicles should be wiped down on steering wheel, and doors handle as well as any driver surfaces.
- Our office is now open to the public and for all employees. Employees should minimize in person contact and maintain 6ft social distancing guidelines at all times.
- Employees are to wash or disinfect hands upon entering the office and after any interactions with employees or other individuals.
- Employees are encouraged to carry and use hand sanitizer regularly, especially before eating. Pneumatech will provide hand sanitizer to employees upon request.
- Considerations of the impact of school closures on employees will continue to be monitored.
- All employees should avoid being in groups larger than 10 individuals per CDC and Texas Health and Human Services guidelines.
- Daily temperature screening and health questionnaire by all employees prior to commencement of work.
 - Daily temperature screenings and health questionnaires will continue until July 1, 2020 unless an extension is made.
- If exhibiting symptoms, contact your physician for testing and treatment recommendations.
 - If COVID-19 case is **NOT** suspected employee must provide a medical release prior to returning to work
 - If COVID-19 case is suspected
 - The individual is required to quarantine at home pending test results
 - Identify all personnel and individuals that have been in contact with suspected case
 - If COVID-19 case is confirmed
 - Mandatory 14-day quarantine is required for the individual
 - All employees in contact (within 6 feet) with positive employee will be notified and must quarantine for 7 days to self monitor.
 - The individual must provide a medical release prior to returning to work

Pneumatech is taking every precaution to protect our employees, customers and vendors while maintaining our high standards of customer service. Our top priority is the safety, health and well-being of our team. We are and will continue to follow guidelines and recommendations set forth by the World Health Organization (WHO), Texas HHSE, and the Centers for Disease Control (CDC).

Best regards,

Kent Lambeth
